

**Mr. RK Sharma**  
***President - Hydro***  
***Energy Infratech Private limited***

**PROFILE**

Sh. R.K.Sharma is a Chartered Engineer with 39 years of professional experience in power sector. He has been Chairman and Managing Director of Tehri Hydro Development Corporation Ltd and prior to that Director (Technical) on board of National Hydroelectric Power Corporation Ltd. He started his career with Haryana SEB and served in Beas Construction Board before he joined NHPC.

**PROFESSIONAL HIGHLIGHTS**

He has a rich mix of experience in planning, engineering, execution, operation and maintenance of hydropower projects and transmission systems. Result oriented approach is his forte and is an achiever. During his short tenure in THDC, a languishing Tehri Hydro Power Project (1000 MW) was completed successfully.

He is a strong supporter of hydropower development in the country. He has been closely associated in policy formation on hydro tariff and power reforms. He has been on many technical committees constituted by Government. He has been a member on Advisory Board of Punjab Electricity Regulatory Commission for more than 3 years.

He is a Chartered Engineer and Fellow of Institution of Engineers (India) and a recipient of 'Eminent Engineer Award 2005' by Institution of Engineers. He is National Vice President of Indian Institution of Plant Engineers. He has also been a National Vice President of CIGRE India for two terms.

He has authored many technical papers published and presented in India and abroad. Sh Sharma is widely traveled.
